February 2018

RLI Curriculum Meeting In Mumbai, India

FOR THE FIRST TIME, a Curriculum/Best Practices Meeting will be held outside the United States. It will be held in Mumbai, India on **FEBRUARY 23-25** and is intended for RLI leaders primarily in South Asia, but is ALSO open to any RLI leader who is able to attend.

Over many past years, RLI Curriculum Meetings were held in the United States. Their purpose is/was to develop the course outlines, etc. that are used for RLI courses. As RLI has grown so much all around the world, the International Officers want to make curriculum meetings more convenient to RLI leaders from many parts of the world. RLI now has divisions and programs in 410 Rotary districts in 181 countries and territories in every continent except Antarctica (and is continually growing).

One of the great advantages of an international organization is the ability to exchange ideas/suggestions, etc. from many people from many cultures and backgrounds. Such exchanges are great assets in the improvements of the RLI programs.

South Asia has excellent RLI programs and the work of this coming meeting can not only benefit the continued growth and improvement of RLI in South Asia, but can also benefit RLI programs around the world. Depending on the results of the Mumbai meeting, RLI plans to hold curriculum/best practices meetings in more and more regions of the world.

The discussion of best practices for holding courses, organizing RLI divisions, providing suggestions for financing and operating the mechanics of the program, is a further attempt to share ideas and experiences. Best practices suggestions will be posted on the RLI Files web site.

WE CORDIALLY INVITE TO THE MUMBAI MEETING, RLI LEADERS NOT ONLY IN SOUTH ASIA, BUT IN ALL PARTS OF THE WORLD WHO ARE ABLE TO ATTEND. A GREAT EXPERIENCE IS ASSURED.

FOR DETAILS OF THE MEETING AND REGISTRATION INFORMATION, PLEASE CONTACT PDG SUBHASH SARAF at subhashsaraf@gmail.com.

We look forward to a great meeting.
With warmest wishes,

PRID David Linett, International Chair, RLI
